# Optima V10

## Easy to use two-tier bicycle parking system

By adding a second row to the bicycle parking system, the Optima V10 lets users park more bikes in the space available. It offers generous parking spots to make parking comfortable and easy.

**Effortless parking**
Both layers of the Optima V10 are easily accessible. The racks on the upper level come down to the ground and gas pressure springs support the user in bringing them up and down.

**No loss of parking spaces**
The Optima V10 can be extended or linked together by attaching multiple systems together. No spaces will be lost when combining the systems.

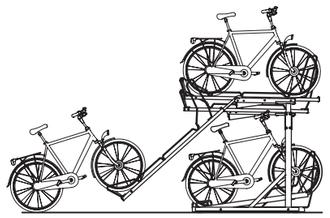

**Upgradeble to Optima V10 XL**
The Optima V10 can be upgraded to an XL version, accommodating bikes with crates in the front, child seats, or e-bikes.

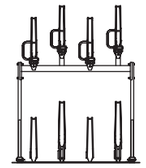

# Material and specifications

- Centre-to-centre dimension of 37.5 cm.
- Steel support structure made of tube 80 x 80 x 4 mm, 80 x 40 x 4 mm, 60 x 40 x 3 mm and 70 x 50 x 3 mm.

# Wherever you are

VConsyst B.V. is a producer of products and software made for managing and maintaining public outdoor spaces. Driven by social themes such as circularity and sustainability, we work on better living environments that provide increasingly smarter, more efficient and cleaner solutions. We continuously strive for progress. For people, the environment and society. You are not always aware of it, but VConsyst is always around.

You will find our iconic waste bins, bicycle parking systems, bicycle shelters and street furniture throughout the Netherlands and abroad. We provide you with suitable, innovative total solutions for the design and management of public outdoor spaces.

Solutions that make your living environment easier, more beautiful and safer. And above all: more sustainable. Because VConsyst not only thinks about today and tomorrow, but also about future generations. Wherever you are, now and later.

**Litter bins**
Sustainable litter bins for public spaces.

**Durable canopies**
Open and lockable canopies for public spaces and business parks.

**Durable seating**
High quality outdoor benches and seating for any application.

**Underground containers**
Underground waste containers that fit in with the streetscape.

**Sustainable bicycle parking**
From simple racks to complex two-tier solutions.

**VConsyst Dynamics**
The software basis of all our solutions.
